This is to certify that Green, Energy and Environment Audit has been carried out at **Sivananda Sarma Memorial RV College, Bengaluru.**

In recent times, the entire world is facing the challenge of energy management on the face of progress and development. It is essential to take measures to make the built environment green and sustainable for the benefit of our present and future generations.

Aligning with this vision, Sivananda Sarma Memorial RV College believes in sustainability and the urgent need to take the necessary step towards a sustainable campus. A sustainable campus comprises several components such as Energy Consumption, Water Conservation, Landscaping & mapping of Biodiversity, Waste Management and Alternate Energy. With this framework, the specific objective purpose of the audit was to evaluate the several aspects of Sustainability standards at college. This can positively impact the students and staff's approach and lifestyle to spread awareness to others.

We are highly obliged & sincerely thank the college's senior management, faculty and non-teaching staff who rendered their valuable assistance and cooperation in smoothly conducting the audits. The system present at the college have been verified and accepted. The efforts taken by the faculty towards environment and sustainability is highly appreciated and commendable.
