A Report

The event started with Mr.Gokul C, Who gave opening remarks about the topic for the discussion. He mentioned the need for digitization in higher education among the faculty members. The topic was initiated by Head of the Department of Commerce and IQAC Director, Dr. M S Nagaraj.

The academic discussion on the topic Technology in education- prospects and challenges, Collaborations – industries, institutions etc, Roadmap towards women entrepreneurship It was held in the seminar hall, of the College and was attended by faculty members of the Department of Commerce and the Department of computer applications. The discussion was moderated by, Mr.Arun Kumar R.

The discussion outcomes are as follows:

✓ Technology in Education – Prospects and Challenges

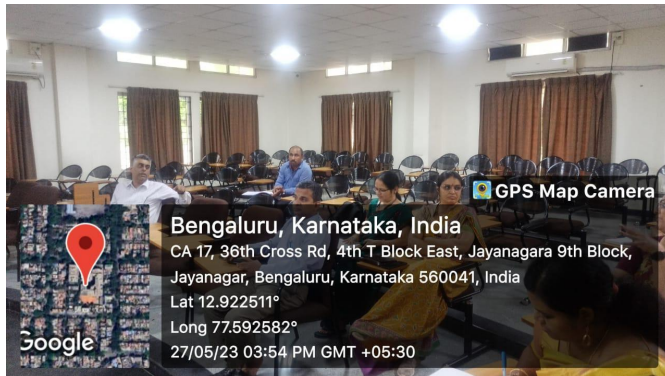

- Training required both for the teacher and student
- Use of ICT to be made simpler
- Have more proctored examinations to provide exposure to students for future competitive exams.
- To provide more app-based education tools and ensure that the students are not distracted while using their smart phones.
- Knowledge of SPSS and R Programming both for Faculty members and students.

✓ Roadmap Towards Women Entrepreneurship

- Transparency and information on various Govt schemes available for women entrepreneurs
- Sourcing of funds from various NGOs
- Awareness on Women Entrepreneurship through ED Cell and Women Empowerment Cell
- Provide the required skills to women to develop their entrepreneurial traits.
- Conduct workshops through incubation centre
- Conduct a market study and come out with a business idea earmarked for women entrepreneurs.

✓ Collaborations – Industries, Institutions etc

- Internship for both faculty members and students to bridge the industry and academia gap.
  - To have continuous connectivity with various industries for both employment and internships.
  - To bring in a common interest/objectives between the HEIs and Industry so that both work towards the same.
  - Initiatives like WILP to help students to gain industry exposure
- The discussion concluded with closing remarks by Mr.Gokul C. The faculty members actively participated in the discussion.
