OVERALL FEEDBACK OF THE STUDENTS

The overall feedback from the students regarding the “Waste Management: Sustainable Practices for a Circular Economy” workshop was extremely positive. Students expressed the session informative, engaging, and relevant to current global environmental challenges. They appreciated the practical insights into waste segregation, recycling, reuse, composting, responsible consumption, and circular economy practices.

Many students expressed that the workshop helped them understand the importance of individual responsibility in reducing waste and protecting the environment. The real-life examples and practical approaches discussed during the session made the topic easier to understand and encouraged students to adopt sustainable practices in their daily lives.

Students also appreciated the interactive nature of the programme and suggested that similar workshops, awareness programmes, demonstrations, field trips and hands-on activities could be conducted regularly. Overall, the workshop successfully created greater awareness, environmental responsibility, and interest among students towards sustainable waste management and the circular economy.
