Department of Computer Applications

Certification Courses Offered – Academic Year 2026–27

The Department of Computer Applications has introduced a range of **industry-oriented certification courses** for BCA students as part of its continuous efforts to bridge the gap between academic learning and industry requirements. These programmes provide students with exposure to emerging technologies, practical skills, professional tools, and contemporary technology practices.

The certification courses have been offered in collaboration with **industry and technology partners**, with the objective of enhancing students' technical competencies, employability, and readiness for higher education and professional careers.

The initiative reflects the department's commitment to:

- Integrating **industry-oriented learning** with academic curriculum.
- Providing students with **hands-on and experiential learning opportunities**.
- Developing technology skills from the **early semesters**.
- Strengthening students' **employability and professional competencies**.
- Facilitating interaction with **industry experts and technology professionals**.
- Enabling students to earn **recognized certifications** in relevant technology domains.
- Creating a pathway from **academic concepts** → **practical skills** → **industry readiness**.

Sl. No.	Semester / Section	Certification Course Name	Offered By	Trainer / Resource Person
1	I Sem – A	AI & Emerging Technologies	Ray Vector	Mr.Jeobert Antony
2	I Sem – B	Cloud & DevOps Infrastructure Security	RV Skills	Mr.Anand
3	III Sem – A	MEAN Full Stack Development with UI/UX	NX Design	Mr. Hrithik M P
4	III Sem – B	DOCI	AbStream Technologies	Mr.KG
5	III Sem – C	CACS	AbStream Technologies	Mr.KG
